VOL. XXVI, NO. 116 GAINESVILLE, FLORIDA, TUESDAY, JUNE 22, 1909 TEN CENTS A WEEK

CALHOUN JURY COULD NOT REACH AGREEMENT

Stood Ten for Acquittal and Two for Conviction. Will Be Tried Again Soon.

SAN FRANCISCO, June 21.—Terminating in a disagreement of the jury with ten men determined on acquittal and two resolved on conviction, the trial for bribery of Patrick Calhoun, of the United Railroads, ended at noon yesterday. Five months and a week had passed since the wealthy street railroad owner, a descendant of Patrick Henry, made his first appearance in court to answer to the charge of offering a bribe of $4,000 to a supervisor to obtain an overhead trolley for his corporation.

Not until each juror had pronounced as hopeless the prospect of a verdict was the order for their dismissal made by Judge Lawlor, prosecution and defense giving assent to the discharge.

The trial ended quietly. The defendant and his attorneys, as well as the chief officers of the prosecution, refrained from comment on the disagreement.

Five ballots were taken, three shortly after the jury retired. On the first vote the jury stood eight for acquittal and four for conviction. Two of the four joined the majority on the second ballot, and one of the remaining two announced his determination to remain out a month if necessary.

After ordering the discharge of the jury, Judge Lawlor addressed to the jurors some informal remarks, criticising the laws and usages that made possible the expense of three months in the empanelling of a jury. He declared the courts were utterly helpless to prevent such occurrences and recommended that the legislature be influenced by the people to change the laws that governed the court procedures.

The attorneys are expected to fix a date for another trial on the same indictment tomorrow.

"I am ready to try the case again, and I will go ahead tomorrow, if necessary," said Prosecutor Heney.

Mr. Calhoun tonight said:

"Of course I am disappointed at the failure of the jury to acquit me of the unjust charges against me.

"The judge was hostile, the assistant district attorney bribed, and the administration of the law of this State disgraced. I propose at the proper time and in a proper manner to submit formal charges against Assistant District Attorney Heney for receiving bribes, and against Rudolph Spreckles and James D. Phelan, for having paid them."

Officers Killed Negro Desperado Near Starke

STARKE, June 21.—The negro murderer, "Polly" Swaggard, was shot and killed near Highland Saturday morning by officers in making the arrest.

The negro had been seen at Black's still Thursday evening and the sheriff was notified and deputies went in pursuit and hunted in the large swamps northwest of Highland, the hunt continuing until Saturday morning, when the negro was first seen by an unarmed woods rider of Mr. Black's, the negro drawing the gun on him and asking him what he was out there for. Being satisfied that he was not hunting for him, he asked the way to Raiford, which was pointed out.

Mallie Jones and Jeff Johns, after an all night's search as well as the day and night before, stopped at the house of "Bunk" Wilkinson, who told them he had a dog that would trail negroes. The three started up the road toward the swamp and met the negro just after he had left the woods rider. The dog ran ahead and was shot and killed by the negro, who then opened fire on the officers. The fire was returned and the negro killed, thus ridding the country of a menace to human life. Too much praise cannot be given to Mallie Jones, Jeff Johns and "Bunk" Wilkinson, who fired only when it was necessary to save their own lives.

Sheriff Langford can well be proud of his campaign against this murderer.

Standard Oil Co. Will Comply With Ordinance

The Standard Oil Company will comply with the city ordinance in reference to the new fire proof building for the storing of their goods within the city limits, but the question that now confronts the business houses is how will they be supplied with oil until the house can be erected.

Some immediate action will have to be taken, for under the present law D. C. Edwards, the agent here, will not be allowed to store more than 175 gallons of oil in the tank, and that would be far insufficient to go around the square for any day that the wagon is out on its rounds.

The present crisis was reached from the fact that he was endeavoring to fulfil the wants of the trade, and was carrying more than the law allowed, and consequently was arrested and appeared before Mayor Davis, who fined him $25 and costs, but the fine was to be remitted provided the building was built within sixty days' time.

The Jacksonville agent for the company was here yesterday and will endeavor to see if some means cannot be arranged to save the business men the necessary hardship of receiving their goods in barrels and the trouble of emptying them and returning them to Jacksonville to be refilled, as this course will have to be pursued under present conditions.

There is now another tank of oil ready in the yard to be transferred to the stationary tank, but it will very probably be reshipped to Jacksonville today, and this will make kerosene come higher to the merchants who will have so much handling to do, besides paying for the freight extra.

KELLEY AND DAVIDSON ON TRIAL FOR MURDER

JURY SECURED IN CASE WITH LITTLE TROUBLE.

Five State Witnesses Were Examined Monday, When Court Adjourned Until This Morning.

(By J. E. Burtz.)

PALATKA, June 21.—(Special)—Circuit Court was called to order here this morning at 9 o'clock, Judge Wills presiding, a change of venue in the case of James Kelley and D. M. Davidson, charged with the murder of W. C. Sellars at High Springs, having been granted from Alachua county.

Defendants are represented by Cols. J. N. Stripling of Jacksonville, B. A. Thrasher and Judge Syd L. Carter of Gainesville, Col. S. J. Hilburn, E. Noble Calhoun of Palatka, and Hon. R. W. Davis of Tampa, while the State is represented by State Attorney J. M. Rivers and Hon. Thos. Palmer of Tampa.

Little delay was experienced in obtaining a jury, and five witnesses for the State had been examined up to adjournment this evening.

A large number of witnesses are to be examined on both sides, and several days will be occupied in the trial of the case.

Many spectators are present, among them being friends and relatives of the defendants as well as of the murdered man.

The case will be resumed in the morning.

(The Sun has detailed a special representative to report the above case, and a concise synopsis of the evidence will appear from day to day, the evidence of Monday appearing in Wednesday's paper.—Editor.)

UPSHAW LECTURE POSTPONED.

Revival Breaks Out at Rodman and Lecturer Will Remain.

The lecture of Mr. William D. Upshaw, which had been announced to take place at the court house in Gainesville next Wednesday night, has been called off.

Mr. Upshaw spoke in Rodman last Sunday and a revival broke out upon the people so much that they persuaded the lecturer to postpone his dates at Gainesville and Alachua for the spiritual good of their community, where Mr. Upshaw conducted a gracious meeting some years ago. Mr. Upshaw writes that he will try to come to Gainesville and give his new lecture, "John and His Hat," in the fall, when the schools are open, for he greatly loves student life.

WORK COMMENCES.

President King Arrives Monday Morning from Charlottesville.

Work has again been resumed on the Government building, and President King, of the King Lumber Company, states that under the arrangements he has now made he will not again be delayed in the matter of material, for it will arrive regularly and keep ahead of the workmen.

There are now three cars in transit, and he will have a derrick placed on the line of one of the railroads for the purpose of unloading this heavy material.

A force of hands were again put to work yesterday, and from this time on experienced and skilled labor will be employed and very little common labor used.

Isn't there something which only a want ad. can do for you today?

MYSTERIOUS MURDER LAID TO THE CHINESE

Young Woman Had Been Prominent in Mission Work in Chinese Quarters of New York.

NEW YORK, June 21.—Until a dapper, stockily built Chinese, well educated, and when last seen dressed in a black suit of American cut, is under arrest and put through the "third degree," it is likely the murder of Elsie Sigel, grand-daughter of the old German Civil War hero, will remain unsolved.

Leong Ling, alias Leong Lee Lim, alias William L. Leon, alias William L. Lion, converted Mongolian, restaurant proprietor, admirer of white women and lover of Elsie Sigel, is the man. When or how he left New York while the girl's body lay cramped and decomposing in a battered trunk in the stuffy little room he formerly occupied, remains to be learned. With him is supposed to be his erstwhile room mate, Shun Sin.

Some reports say that they are on their way to Vancouver, via Panama.

Few murder cases have developed more rapidly and at the same time come no nearer solution. That part of the story unravelled here Sunday brought out principally the mysterious phases of the girl's life; her apparent craze for mission work among the Chinese, her associations with the man who is supposed to have killed her and lastly the fact that on his account she left home June 9. It has also come out that the girl's mother, now prostrated according to reports, had been fearful of her daughter's safety ever since her disappearance and had searched Chinatown day after day without success.

Both parents cling to the evasive clue that a telegram signed "E. S." was sent from Washington, D. C., on the fateful Wednesday. This message read:

"Will be home Sunday or soon. Do not worry."

The father, it is thought, hurried to Washington yesterday to determine whether the telegram was sent by his daughter or as a blind. The police maintain it was sent by a Chinaman quickly after the murder to aid the murderer to escape.

Leon or Lion and Shun Sin were well-to-do. Investigation shows that they conducted four restaurants.

Elsie Sigel's entry into the mysterious ways of the Chinese came through her now grief-crazed mother, who was long identified with Sunday schools and mission work in Chinatown.

When Leon, whom she met at his Fort George restaurant, became attentive, he was received in the Sigel home and continued his associations with the girl until his love became violent. Then, it is said, her father forbade him the house. It was then that Elsie, although afraid of her admirer, deserted her home never to be seen alive again by any of her household. Where she went directly after leaving home, whether she joined the Chinaman or was lured to the room and murdered, must be cleared up.

The following note, undated, was found in Leon's effects:

"You seem to be growing cold to me. Just think of the sacrifice I have made for you, my family, my friends. For God's sake don't forsake me. (Signed.) ELSIE."

Motive for Murder.

As to the motive for the murder, the police are inclined to accept, first, jealousy and the love mania. The girl was loved by at least one other Chinaman than Leon. A letter to Leon, threatening him if he persisted in his attentions, gives a clue to this phase of the case. A Celestial known as Yun Bing is known to have admired her.

Three Chinamen associated with the restaurant keeper, Sun Leung, above whose place the body was found, have been arrested, but are held only as material witnesses. Sun Leung is missing.

In the meantime, physicians are making a more minute examination of the body and its organs. An autopsy held this afternoon determined that the victim died from asphyxiation, but since there were indications of poison present a chemical analysis will be necessary.

Franz Sigel, an uncle of the girl, and one of the four sons who survive Franz Sigel, has come to the aid of the stricken family of his

Honeymoon in Baloon Is the Latest Wrinkle

PITTSFIELD, Mass., June 21.—Floating off up through cloudland in the baloon Pittsfield, shortly after midnight Saturday morning, Roger Noble Burnham, a sculptor and Harvard '99 man of Brookline, and his bride, who was Eleanor Howard Warring, an authoress, also of Brookline, began an aerial honeymoon. The incident was unique in aeronautical history, and fully 5,000 people sent up shouts of good will and happiness into the dark night.

The couple were married by the Rev. John Harvey, at the summer home of Miss Fay in Woods Hole yesterday. The couple immediately took the train for Pittsfield, where Pilot William Vansicet had received orders to have a baloon in readiness for a honeymoon trip. The couple arrived here at 10:18 and soon after went to Aero Park. The largest crowd which has yet witnessed a baloon ascension in Pittsfield was on hand.

In the gathering were eight newly wed couples who came over from fashionable Lenox. They included Charles Daniel, the world's champion swimmer, and Mrs. Daniels; William Dodge, the actor, and his bride, formerly Miss Helen Hale, the actress, and Mr. and Mrs. Branley Welch of Philadelphia.

The baloon went up at 12:45 and floated off to the northwest with but little wind blowing.

The baloon voyage was brought down about a mile from the center of Holbrook, Mass., at 4:20 a. m. Sunday, after a pleasant and uneventful trip.

The distance covered was about 120 miles.

Until the break of dawn the aeronauts had no idea of their exact location, but when the sun arose they were able to see blue hills and Boston harbor, and found they were being taken in a southeasterly direction, which, if followed, would carry them out to sea. A landing was then made, and Mr. and Mrs. Burnham continued on their uniquely begun honeymoon.

JONAS MALPHURS GETS GAY OVER AT ROCHELLE

FIRED PISTOL IN RECKLESS MANNER FROM CAR.

Justice Carlisle Fines Him $25 and Costs or Three Months Imprisonment in the County Jail.

Jonas Malphurs, a young white boy of this city, became too gay on last Saturday afternoon at Rochelle, with the result that he is now in trouble.

Jonas, in company with another young man, visited Rochelle and wanted to "take the town" on last Saturday evening. They were sufficiently tanked with bad booze to believe that they were "the whole thing," when Deputy Sheriff Zetrouer appeared upon the scene and placed Malphurs under arrest, the other party making his escape.

The first appearance of the trouble was when Malphurs wanted to "kill him a negro" in front of the postoffice, but on the advice of his friend he was persuaded to put up his gun and leave the place. He next got into an empty A. C. L. passenger coach and fired his pistol five times in the direction of a residence, hitting the house once, an oak tree twice, the other shots going wild.

As soon as Malphurs had sufficiently sobered up to be questioned, Justice Roberts asked him about the matter, and he of course remembered nothing of the occurrence, but at Malphurs' solicitation Justice Roberts ordered his case transferred from Rochelle to Gainesville before Justice Carlisle.

Judge Carlisle was as light as he could be under the circumstances and fined him $25 and costs or three months in the county gang at hard labor.

LESS THAN THREE WEEKS.

Owens Has But Little Time Left to Prepare Himself.

R. H. Owens, the condemned white man, now has less than three weeks' time in which to prepare for the fate he is to meet, and it is a very noticeable fact that no change has come over the man in the past few weeks.

He is still of the same "don't-care state," and is rather indifferent to his future, although at times he declares he has made his peace with God.

He has addressed another lengthy letter to The Sun, but it is practically the same as before, and he still has strong hopes of receiving consideration from the Governor.

Attorneys Matheson and Thrasher have again taken steps in his behalf and will do everything possible to have his sentence commuted to imprisonment for life, while it is understood that Rev. Hay will appeal to the Governor in Owens' behalf.

His time to die is Friday, July 9th.

Colored People's Big Day.

The colored people of the Atlas section celebrated Children's Day in a very befitting manner on June 13 at Jerusalem Baptist church, and it was largely attended from all sections.

Rev. B. M. Bryant, pastor of the church, was absent, but Irene Gainey very ably managed the affairs, and with the assistance of Profs. Wilson and Cromety, a grand day was enjoyed.

The recitations and work of the children was especially pleasing, and in all it was a day that will long be remembered by the colored population of that entire section.

Poor Milk

MYSTERIOUS MURDER LAID TO THE CHINESE

brother. For some time, it is said, he has been estranged from them because of Mrs. Sigel's activity among the Chinese. He said he warned her many times against associating with Chinese in the hope of converting them to Christianity.

"Speaking as the uncle of Elsie Sigel," he said, "I would warn all women against association with Chinamen, either in church or otherwise. I do not believe that one in a thousand of the so-called conversions of Chinamen is genuine.

"My niece was innocent. She honestly believed it was her mission to Christianize Chinamen.

"Too late she realized that the feeling of the Mongolian toward white women is animal feeling. I believe this Chinaman Leon killed Elsie in a spirit of animal revenge."

The body has been identified by the family as that of Elsie Sigel, and the latest news indicates that her murderers will never be run down.

Appeal to Patrons of Union Academy.

The patrons of the Union Academy public school are hereby called upon to assemble on the night of June 23rd in Union Academy at 8:30, to organize, and to take such essential steps as in their power lies to make known to the Hon. County Superintendent and County School Board our desires and requisitions as regards the future of above-named school.

Every patron is urged to be present promptly on time, and remain to the end, as this meeting will mean much for the good of our boys and girls, as well as to ourselves.

This call is not a fight direct against the competent or deserving ones, but is indeed a positive and direct fight and protest against the incompetent and the undeserving ones. Meet us at 8:30 p. m. Don't fail.

S.S.S. MAKES A LASTING CURE

Not only its proven ability to cure, but its absolute safety as a remedy, has made S. S. S. the most extensively used of all medicines in the treatment of Contagious Blood Poison. Unlike the strong mineral mixtures, which temporarily remove the outward symptoms and shut the disease up in the system, there to carry on its destructive work on the delicate and vital organs, S. S. S. strikes directly at the root, and by purifying the blood of every trace of the virus, completely and permanently cures the trouble. S. S. S. is Nature's blood purifier, harmless in its action and certain in its good results. It is made from a combination of roots and herbs, each of which has a definite and specific action in purifying the blood. Years were spent in selecting and proportioning the different ingredients, but when S. S. S. was perfected it soon demonstrated its superiority over all other blood medicines, and now, after 40 years, it is still the one and only certain cure for Contagious Blood Poison. While driving out the poison from the circulation S. S. S. builds up and strengthens the system by its fine vegetable tonic effects. If you are suffering with Contagious Blood Poison S. S. S. is your most certain reliance, and because of its freedom from mercury, potash or any other mineral, it is absolutely safe for every one. OAK HALLS TAKE THE FIRST GAME OF SERIES

SPOTTSWOOD'S RUNNING CATCH WAS WHAT SAVED THEM.

Change of Positions Today Will Strengthen Both Teams, and Real Good Game Is Expected.

Monday's game of ball between the Cordele and Oak Hall clubs was rather a poor game, but taking into consideration that this was their first time together on the field, we will have to allow for their errors and bad playing, for not only did the home men seem a little off, but they had company with the visitors.

A very pretty play was by Spottswood in deep center, who made a great sprint and pulled one down with his left hand that certainly looked as if it was good for three bases. This was the real feature of the game.

Both team were credited with some costly bobbles, but they showed up pretty evenly matched. Today's game will be a better exhibition, as the visitors will use their star hurler, who they claim is big league timber. The Georgians are a good set of ball players and no doubt will take the big end of the score today.

The locals started the run-getting right on the jump. Miller walked, Graham bunted and was out at first. Miller advancing to second and a moment later swiped third; "Foxy" Bullock walked; Watson fouled out. Bullock going to second; Hendricks singled to center scoring Miller and Bullock; Denton out, second to first.

The Georgians gave the locals a scare in the first, but nothing resulted. Vibbert fanned; Cawley hit through pitcher's box, and stole second; Brown struck out; Bruce hit a hot one to Watson, which went to Hendricks at second; Cawley, in attempting to reach home, cut third and was called out by the umpire.

The Oak Halls scored again in the sixth inning when Hendricks got hit and took his base, and stole second, a moment later taking third on a fumble by catcher. Denton hit a hot one to short, who couldn't handle it, and Hendricks scored.

In this inning the Cordele boys livened up a little and managed to tie the score. Vibbert fanned; Cawley safe on long fly to Denton, stole second, and came home while Watson was trying to throw Bruce out on a slow grounder down third-base line, but got the ball to Bullock too late to catch the runner. Bruce took second when Bullock tried to nail Cawley at home; Hudson singled to right field, scoring Bruce, and taking second on the throw to the plate, and reached third on a passed ball. Tillman sent a hot one to third, who fumbled, allowing Hudson to score and Tillman to land safely at first. Bowen singled to center, and both runners advanced on a wild pitch by Watson; Hines ended the winning by going out to Hendricks at second.

The Oaks were not long in forging ahead, and in the next inning came back and sent one man around the circuit. Jack Spottswood singled down first-base line, and while the Georgians were sleeping took second. Lawson struck out, but catcher dropped the ball, and on the throw to first Spottswood took third. Cawthon singled to center, scoring Spottswood. Cawthon stole second; Miller skied out to right; Graham out, pitcher to first. This ended the run-getting for both sides, and Wattie settled down and had the kibosh on the visitors during the remainder of the game.

Godwin, Bowen and Bruce did good work for the visitors, while Jack Spottswood's all-around work and Hendricks' fielding and base-running were the features of the Oak Halls. Miller was the heavy man with the stick.

Score by innings:

										R.	H.	E.
Oak Halls	2	0	0	0	0	1	1	0	0	4	5	4
Cordele...	0	0	0	0	0	3	0	0	0	3	8	2

Base on balls—Watson, 1; Hines, 2.
Wild pitches—Watson 2.
Left on bases—Gainesville 7, Cordele 9.
Two-base hits—Miller.
Struck out—By Hines 6, Watson 6.
Hit by pitcher—Bowen.
Umpire Graham.

The second game of the series will be played this afternoon at 3:30, and some changes in the line-up will strengthen both teams; besides both sides will put up an excellent article of ball.

Grand Success.

The Electric Theatre reopening was a great success last night. The little cozy house was crowded to the doors. More ice fans will be installed today.

Mr. Jack Ripp, in one of the acts, was the best yet offered here. He kept the audience in convulsions all the time. His entire act was sterling and one Gainesville seldom has the pleasure of witnessing. Professor Woit's Orchestra was a good added feature, while Mr. Lewis sang to good advantage.

A change of pictures, illustrated songs, also Jack Ripp will add more to his prominence in tonight's program.

Will Open Fish Market.

J. M. Sykes and D. O. Howard of Island Grove were in town Saturday and made The Sun an agreeable call. They are extensively engaged in the fish business in that neighborhood and will establish a market in this city for the sale of a portion of their catch. Mr. Shaw will have charge of the business here.

NEGRO KILLED NEAR KANAPAHA MONDAY

FELL FROM MOVING LOG TRAIN AND CRUSHED TO DEATH.

Lived Only About One Hour After the Accident, and Was Unconscious During Time.

William Banks, a negro workman employed at the sawmill plant of T. J. Swearingen at Kanapaha, was suddenly killed Monday morning by falling from the moving log train.

The negro was connected with the logging crew, which had loaded their first train, and on the way to the mill he became unbalanced in some manner and fell from the trucks between the wheels, the train passing over him before it could be stopped, and mangling him in such a manner that he died about one hour after the accident.

This is the first accident at or near the mill since the new one has been installed, and it is deeply regretted by the managemnt, although no blame can be attached to any of the crew of the train, for Banks was not in the position he should have been when he fell from the cars.

Dr. Carter was summoned from this city and arrived shortly after the negro had expired. His remains will be buried near the mill.

After Le·d Women.

In accordance with the city ordinance, Acting Marshal Richardson and Policeman Owens have got after the low negro women who infest Gainesville to such a disagreeable extent.

Grace Harris and Robbie Mayes were both arrested Monday by the officers and will be given a hearing before Mayor Davis this morning. This is the second arrest of this nature within the past two weeks, and many more are expected to follow, as the officers are determined to enforce the ordinance against this class of women..

Mr. Mooty Has Accident.

W. P. Mooty, pressman of the Pepper Company, had the misfortune on Monday to get his leg in the press while it was being backed up, and as a result he will be disabled for the next few days. He was in the act of putting on a tympin when his foot toucned the back-up of the press, and the machine caught his foot, tearing out a large piece of flesh from the calf of his leg.

Surprising, What Kodol Will Do

For you, when you need it. But the longer you neglect Indigestion, the more you will suffer before Kodol can restore Good Digestion.

And, of course, indigestion if neglected long enough, brings on serious diseases in which Kodol cannot benefit you. Some of these there is no help for at all.

There are, in fact, very few ailments which cannot be traced directly to impure blood. And impure blood is always due to a disordered stomach.

Use Kodol and prevent Nervous Dyspepsia.

Kodol will effectually assist Nature to secure a complete restoration of good digestion. It does this by at once digesting all food in the stomach and keeping it digested, until the stomach is rested and can resume its own work. Kodol removes the cause—and the effect quickly removes itself.

When it is recalled that Apoplexy, Heart Disease, Cancer—and even Consumption—are due to poor digestion and poisons thus transmitted to the blood, and throughout the system—the importance of maintaining good digestion is at once realized.

We knew what Kodol would do before ever the first bottle was sold. If we did not know just what it will do, we would not guarantee it the way we do.

It is easy for you to prove Kodol—the next (or the first) time you have an attack of indigestion. And you will certainly be surprised at the results. It is perfectly harmless.

There can be no harm in trying something that may do you a great deal of good—when it costs you nothing if it doesn't.

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 2½ times as much as the fifty cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operating in various sections of the country, are uniform in their equipment and in their methods of operation.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.

Those 350 carpet factory employes who received checks for $1,000 each on their stock in the company are now walking on velvet.

Studying recent railroad reorganization plans it occurs that some common stocks might be properly renamed "come-on" stocks.

Those merchants who advertise most are the ones whose stores you will see the most people in. The Sun goes to all the people worth reaching all the time.

Senator LaFollette's speech covering 127 pages of the Congressional Record suggests the advisability of placing a prohibitory tariff on speeches of over twenty pages in length.

Cricket Prewitt, editor of The Waldo News, bids fair to become one of the best baseball pitchers in the South. If he continues to make good in this line as he has during the past two seasons his services will soon be sought by one of the regular league teams.

The Florida State Fair will be held at Tampa next year as usual, notwithstanding that the Legislature made no appropriation to assist the enterprise. Properly conducted, there is no reason why the next fair should not be a grand success as a private enterprise.

It behooves the street committee to get busy and have the weeds cut down in various parts of the city, especially on West Liberty, leading to the University. The order has gone forth requiring all property owners to clear all lots of the unsightly weeds, and the city should exercise equal diligence in removing the weeds from the streets.

The dean of the University of Illinois estimates that in another hundred years the population of the United States will be 1,400,000,000. Gainesville will, of course, come in for its share of the increase, and the demand for better accommodations on the subway and interurban cars will then worry the public service commission.

The tonnage of merchandise which passed through Pittsburg, Pa., in 1907 reached the unparalleled total of 161,194,167. Its industries represent an aggregate investment of $568,000,000; its annual yield of commercial products is estimated at $575,000,000, and its 261,000 workmen receive yearly wages of $365,000,000. It is inconceivable that Mr. Frick, or anyone else, ever made a pessimistic prediction for Pittsburg.

Capt. D. W. Budd, who resided in Gainesville some years ago but who is now making his home at St. Petersburg, is the champion tarpon fisherman of the Gulf Coast. He has landed seven of the Silver Kings since May 16, five of which were caught on May 31. Mrs. Budd also has a record of two tarpon this season, making a total of nine caught by the Captain and his wife since the season opened, the total weight of which is 606 pounds, or an average of 67 1-2 pounds each. The largest of the nine weighed 85 pounds, while the smallest tipped the scales at 57 pounds.

FUTURE FOOD SUPPLIES.

Questions of food supplies are world-wide themes of public discussion. The struggle for existence under increasing population is not solely political, but primarily economic. The farmer's case in the court of public opinion has to be heard at length about once every ten years. He has not had his innings, however, says The Wall Street Journal, since the populist agitation of more than a decade ago.

Meanwhile the question, thanks to the betterment of farm prices, has shifted twice at least. Late in the nineties the food supply question became one of commercial distribution. The reports of the Industrial Commission on this subject were the answer which official inquiry made to the problem then raised. Since then the third shift has taken place and the question is now squarely before the consumer.

Put in its more scientific form, in which the agriculturist of technical familarity with this industry sees it, Professor Davenport, of the University of Illinois, in a recent address, explained the situation as follows:

"Any way you can figure it, we are near the end of cheap food in this country, which means that the population is beginning to overtake the food supply. We can increase production yet many fold by means of better methods, more intensive practice and the requisition of undeveloped areas, but the best land has been developed, its fertility has been more or less depleted and some of it has already been abandoned."

This view is so widely accepted among men best qualified to speak that it is hardly wise for the layman to question its accuracy. The best that can be said is possibly that the perspective which the view assumes is so extended that it need occasion no alarm. A hundred years is far away, so far that three generations or more must come and go. Furthermore, the old pioneer type of farming, which skins the soil, is passing away with the people who had little labor and small capital to work over-abundant lands. Much of the abandonment of land has been due to the high cost of capital, thus abridging the employment of machinery.

Furthermore, rural investment has not found farm prices, except in recent years, advancing with the cost of capital, labor and other elements of expense. Meanwhile the yield for such a crop as wheat has been fairly constant. The figures below show that for the decade ending with 1898 the average price of wheat was 66.58 cents a bushel and for that ending with 1907 it was 63.65 cents. Meanwhile the yield in one decade has improved little over that of the other:

	Average Yield.	Average Farm Price
1899-1907	13.35	63.65
1889-1898	13.21	66.58

Wheat may be taken as an index of other farm values. If the increase in the population of the world wants more bread, more meat, more milk and provisions, it will have to pay a price sufficient to induce people to maintain something of a city standard of living on farms of the country, or go elsewhere to get the things they want. Professor Davenport's conclusion accords with the inevitable and the rest of the world must foot the bill.

The Illinois Legislature has enacted a law making null and void all leases of flats which contain clauses prohibiting babies on the premises. If Governor Deneen signs the law the youngsters can cry all night if they want to, and no orders to move may legally come from the boss of the flat next morning.

Special or local laws providing punishment for crime are claimed to be unconstitutional. This discovery will render invalid nearly all the special game and fish laws passed prior to the last session of the Legislature. Many of the relief bills providing for the payment of money out of the State treasury, heretofore passed, were also void for the reason that they did not receive the necessary two-thirds vote of all the members elected to both branches of the Legislature. But in the latter case there is no remedy for the State, as the money has already been paid out. The Constitution is now such a mess of patch-work that it takes a shrewd lawyer to tell just what it means in many instances. A new Constitution is needed more than anything else in Florida.

Gen. Law, editor of The Bartow Courier-Informant, expresses his sentiments in no unmistakable terms regarding the "freak" bill regulating newspapers, passed by the last Legislature and vetoed by the Governor. He says: "That was a terrible slap in the face given to the Legislature by Governor Gilchrist, when he consulted the editors of the State as to what he should do with that fool bill attacking the liberty of the press, passed by that sapient set of so-called solons. But they deserve what they got. Pity that in killing the bill by his veto he couldn't have killed (politically) its author and every man who voted for it."

Tampa has been selected as headquarters of the Florida Citrus Exchange, the new organization of fruit growers patterned after that which has operated so successfully for the benefit of California growers. This organization was perfected after the report of a committee sent to California to investigate the method of handling the citrus crop in that State, and the growers confidently expect very beneficial results from the systematic handling of the orange and grapefruit crop which will hereafter be distrubuted under the direction of the Exchange.

THE REAL TEST

Of Herpicide Is In Giving It a Thorough Trial.

There is only one test by which to judge of the efficiency of any article and that is by its ability to do that which it is intended to do. Many hair vigors may look nice and smell nice, but the point is—do they eradicate Dandruff and stop falling hair?

No, they do not, but Herpicide does, because it goes to the root of the evil and kills the germ that attacks the papilla from whence the hair gets its life.

Letters from prominent people everywhere are daily proving that Newbro's Herpicide stands the "test of use."

It is a delightful dressing, clear, pure and free from oil or grease.

SPECIAL INTEREST TO PENSION APPLICANTS

All blanks on prescribed forms must be correctly filled out, applicant's name must be signed in full and the signature attested by two witnesses.

Widows must sign their own Christian names, and not the names of their husbands.

All applications must be submitted to the county commissioners of the county in which the applicant resides before filing in the pension department.

Applicants will save needless trouble and delay by complying carefully with the above instructions, as all claims not properly filled out will be returned for correction.

All persons will be required to make a renewal of application, but further proof of service will not be required of former pensioners of this State if the former claim is in compliance with the provisions of the act of 1909.

All claims will be filed immediately upon receipt in the pension department and will be considered as promptly as possible, applicants notified of the disposition of their claims, and certificates and vouchers forwarded to all persons allowed pensions under the act of 1909

Under the act of 1909 only persons who served in the Confederate States army or navy and in the First Regiment of Florida Reserves and their widows will be granted pensions.

No State troops or home guards of this or any other State will be pensioned under this act.

All former pensioners whose claims were allowed upon certificate of the adjutant of a camp of Confederate Veterans will be required to furnish the affidavit of a commissioned officer under whom he served, or of two comrades with whom he served or a transcript from the office of the Adjutant General at Washington showing the service claimed.

No person who owns property to exceed the value of $5,000 or whose property both real and personal (including the property of his wife) exceeds the value of $5,000 will be pensioned.

The affidavit of two reputable physicians will be required to establish total disability.

Applicants are earnestly requested to comply fully with the above instructions and not to burden this office with unnecessary corespondence, so that the work of revision of the pension roll can be completed in time to make the October payment at the end of the quarter.

The necessary blanks can be obtained from the clerks of the circuit courts in the different counties, or from the Comptroller's office, after July 1st.

JEFFERSON BELL,
Sec'y State Board of Pensions.

BAKER—JOHNSON.

Popular Young People of the East End United in Holy Wedlock.

CAMPVILLE, June 21.—There was a beautiful wedding ceremony five miles below this place, in the Methodist church in Hawthorn, on June 9th, between Mr. Robert Baker and Miss Mildred Johnson that excels any social event that has occurred in this part of the county. The many friends in the surrounding country as well as those from distant parts of the State were there to offer congratulations and to witness their departure on the Coast Line train for St. Augustine and other points of interest. A spirit of fun and jolity seemed to pervade the throng and they were sent off amidst a copious shower of rice and well wishes of their friends.

The groom is a young man of integrity and sterling worth, and no stronger evidence of the popularity of the bride can be had than to view with amazement and pleasure the beautiful and costly array of bridal presents from near-by friends and those of other parts of the State, as well as from abroad. Being possessed of the happy faculty of winning friends, the bride, though but 17 years of age, is widely known and highly esteemed by her numerous friends. Thus it is that this young couple are started out in life under auspicous prospects, and may nothing dim the luster of their joy nor obscure the sunlight of their happiness.

A BLUNDERING THIEF GETS $350, LOSES $700

On Wednesday night of this week R. E. Patrick, a melon dealer, and one Walker Reed, who were acquaintances, slept in the same room at the Magnolia Hotel in Leesburg. Patrick went to bed with a purse containing $350 under his pillow, but when he got up Thursday morning the purse and Reed were both gone. As Reed had not left town Patrick proceeded to have him arrested. When Marshal Torian brought him before Judge Ivey, Reed vigorously denied the theft, but said that rather than have trouble about the matter he would pay Patrick $250 in money and give him a diamond ring worth $100. Patrick cheerfully accepted the offer, and the charge was dismissed. But the end was not yet. Jasper Cureton, whose eyes are always open, carries the Seaboard mail, and on Thursday morning just at daylight, as he went to the depot by a short route, he saw a well-dressed young man in the bushes north of town scratching in the sand. He recognized him as being Walker Reed. A few hours later he reported the matter to Mr. Torian. After the compromise between Patrick and Reed had been made, Torian, Patrick, Cureton and perhaps one or two others, walked down to the spot where Cureton had seen Reed so early in the morning. There they soon found Patrick's fat purse buried in the soil. It still contained every cent of the $350. Patrick put the purse and its contents in his pocket and turned over to Torian the $250 and the ring which Reed had given him. Torian now being fully convinced that Reed stole the money, set out to have him arrested again in order that the claim of the State might be satisfied, but Reed got information of this fact through a friend and left town without ceremony. Hereafter when Reed buries money in the bushes he had better look out that the eyes of Jasper Cureton are not on him. Torian holds the money and the ring, and is waiting for Reed's return in order to make a final settlement between him and the State.—Leesburg Commercial.

A collision between Will Heinkle's automobile and a six-foot rattlesnake on the Six Mile creek road Thursday afternoon proved one of the most exciting events of the season. Mr. Heinkle saw the snake some distance ahead and at first thought someone had heaved a log across the road. When he saw the object move, he realized that it was a huge snake and, putting on high speed, he brought his car directly down upon the monster. The snake coiled in an instant and struck fiercely at one of the front wheels. The force of the contact threw the rattler into the bushes at the side of the road, but he left the impress of his teeth upon the tire. Mr. Heinkle and several men who were within call instituted a search for the big one and soon routed it from cover, beating it to death with sticks. The snake was six feet in length.—Tampa Tribune.

ESAW WOOD.

And the Story of the Saw Esaw Saw Saw Wood.

Esaw Wood sawed Wood.
Esaw Wood would saw wood!

All the wood Esaw Wood saw Esaw Wood would saw. In other words, all the wood Esaw saw to saw Esaw sought to saw.

Oh, the wood Wood would saw! And oh, the wood saw with which Wood would saw wood.

But one day Wood's wood saw would saw no wood, and thus the wood Wood sawed was not the wood Wood would saw if Wood's wood saw would saw wood.

Now, Wood would saw wood with a wood saw that would saw wood, so Esaw sought a saw that would saw wood.

One day Esaw saw a saw saw wood as no other wood saw Wood saw would saw wood.

In fact, of all the wood saws Wood ever saw saw wood Wood never saw a wood saw that would saw wood as the wood saw Wood saw saw wood would saw wood, and I never saw a wood saw that would saw as the wood saw Wood saw would saw until I saw Esaw Wood saw wood with the wood saw Wood saw saw wood.

Now Wood saws wood with the wood saw Wood saw saw wood,

Oh, the wood the wood saw Wood saw would saw!

Oh, the wood Wood's woodshed would shed when Wood would saw wood with the wood saw Wood saw saw wood!

Finally, no man may ever know how much wood the wood saw Wood saw would saw if the wood saw Wood saw would saw all the wood the wood saw Wood saw would saw.—Woman's Home Companion.

A PLUCKY LAWYER.

The Way Stewart Returned a Desperado's Threat.

"The late Senator Stewart believed in muscular Christianity, and many a rough and tumble fight did he have in the old days in California and Nevada," said a California congressman.

"He was not quarrelsome, but he was never known to run away from an encounter, and as he was a powerful man physically there were not many who were keen to tackle him. On one occasion a noted desperado was interested in a mining suit and sent word to Stewart, who was attorney for the other side, that if he appeared to argue the case he might count on being killed. The fellow had slain half a dozen men, but his threat in nowise intimidated the plucky young lawyer. The desperado had a well known system of hiding a pistol in his coat pocket and shooting his man without openly drawing the weapon. This, Stewart knew, and so when he walked into the courtroom the first thing he did was to lay down a bowie knife about a foot and a half long and a six shooter as big as a young cannon on the table directly in front of him. Then, sternly eying the bad man, he said: 'I hear you mean to kill me if I argue this case. That's a game two can play at. That pistol you have in your coat isn't worth a cent against this layout. The minute you put your right hand in your pocket I'll send a bullet into you and if that doesn't finish you this knife will.'

"An old miner who was present and told me the story said the fellow turned white as a sheet and slunk out of the courtroom to appear no more."—Baltimore American.

To Improve Flight.

During a big Presbyterian convention in 1835 a rhetorical Scotchman from Ohio got the floor. His speech was replete with mingled humor and sarcasm. In the course of it, says the Rev. Galusha Anderson in a book entitled "A Border City During the Civil War," he made this remark about his own eloquence:

"The speech of the brother from this city brought to my mind an experience of my school days. I wrote an oration and handed it to my teacher.

"When he had examined it he called me to him and said:

"'Taylor, if you would only pluck a few feathers from the wings of your imagination and stick them into the tail of your judgment you would write a good deal better.'"

ARTICLES OF INCORPORATION OF KRAFT PAPER COMPANY. NOTICE OF INTENTION TO APPLY FOR LETTERS PATENT.

Notice is hereby given that the undersigned intend to apply to the Governor of the State of Florida, at Tallahassee, Florida, for Letters Patent incorporating Kraft Paper Company under the laws of the State of Florida with and under the following proposed charter, the original of which is now on file in the office of the Secretary of the State of Florida.

B. F. WILLIAMSON,
FRANK H. CHASE,
C. D. DENNIS.

Proposed Charter of Kraft Paper Company.

The undersigned hereby associate themselves together for the purpose of becoming incorporated and forming a corporation under and by virtue of the laws of the State of Florida, with and under the following proposed charter:

Article I—The name of this corporation shall be KRAFT PAPER COMPANY, and its principal place of business shall be Gainesville, Alachua county, Florida. That said company may have such branch offices and other places of business in the State of Florida and in other States and in foreign countries as said corporation shall desire.

Article II—The general nature of the business to be transacted by said corporation shall be the making and manufacturing of pulp and paper and other products from pine and other woods, or other raw materials, and the owning, constructing, operating and maintaining manufacturing plants, and the buying, leasing, acquiring, marketing, selling, conveying and disposing of such pulp and paper and other products and goods manufactured from pine and other woods, and also woods, materials and all kinds of products of pulp, paper and similar materials and supplies, and the business of buying, selling and dealing in pulp, paper and other manufactured products from pine and other wood, and like materials, goods and chattels and other property and appurtenances and rights, licenses and privileges pertaining to any and all of the above-mentioned business. And for the purpose aforesaid, to buy, sell, hold, mortgage and lease property, real and personal. To receive payment for capital stock in this company in money or in property, labor or services, at a just valuation thereof to be fixed by the stockholders or Board of Directors. To borrow money and secure the same and moneys otherwise owing by it by mortgages, deeds, bonds, notes or other obligations therefor. To make contracts, of any kind whatsoever, for the furtherance of its purposes and businesses, including agreements or contracts between the said corporation and individuals or other corporations. Also to acquire, own, lease, sell and dispose of all property, real and personal, of every nature and description that may be necessary or proper to the conduct of said business or businesses. To buy, sell, pledge, own or acquire stock or stocks in this or any other corporation, and to do any and all things necessary and proper in and incident to the business or businesses aforesaid, or any of them, and to act as brokers and agents in the conduct of like business for others, and to exercise all rights, powers or privileges now or hereafter conferred by law upon corporations organized under the provisions of the law of the State of Florida, authorizing the formation of this corporation.

Article III—The amount of capital stock of this corporation shall be Two Million Five Hundred Thousand Dollars ($2,500,000), divided into shares of One Hundred Dollars ($100.00) each. All or any of said capital stock of said corporation may be payable in or issued or used for the purpose of property, labor or services at a just valuation thereof, to be fixed by the incorporators or by the Board of Directors at a meeting called for that purpose.

Article IV—The term for which said corporation shall exist shall be ninety-nine (99) years.

Article V.—The officers of said corporation shall be a President, a Vice-President, a Secretary and Treasurer, to be elected by the Board of Directors, and a board of not less than three (3) Directors to be elected by the stockholders. The same person may hold the office of Secretary and Treasurer. Any of the above-named officers may also be elected General Manager by the said Board of Directors.

The officers of the said corporation who shall conduct the business of the corporation until those who shall be elected at the first election shall be qualified are Bailey F. Williamson, President; Frank H. Chase, Vice-President; C. D. Dennis, Secretary and Treasurer, and Bailey F. Williamson, Frank H. Chase and C. D. Dennis as Directors.

Such officers and directors shall be elected on the first Tuesday in February in each year.

Article VI—The highest amount of indebtedness or liability to which said corporation can at any time subject itself is Two Million Dollars ($2,000,000.)

Article VII—The said corporation shall adopt a corporate seal, and may adopt by-laws for the government of its affairs not inconsistent with its articles of incorporation or the laws of the State of Florida, and the said by-laws may be amended or repealed and others adopted from time to time as may be provided in said by-laws.

Article VIII—The names and residences of the incorporators of said corporation and its subscribers to stock thereof, with the number of shares of its capital stock subscribed for by each, are as follows:

B. F. Williamson, Gainesville, Fla., 3,000 shares.

Frank H. Chase, Chicago, Ill., 2,100 shares.

C. D. Dennis, Gainesville, Fla., 10 shares.

State of Florida,)
County of Alachua.)

Personally appeared before me B. F. Williamson, Frank H. Chase and C. D. Dennis, to me well-known as the persons who executed the foregoing Articles of Incorporation of the Kraft Paper Company, and who each severally and duly acknowledged that he executed the same for the purposes therein expressed.

In Witness Whereof, I have hereunto set my hand and official seal this 8th day of May, A. D. 1909.

HARVEY P. ROBINSON,
Notary Public State of Florida at large. My commission expires May 18, 1909.

Note: On account of there being another paper house in the State using the name of Florida Paper Company the Secretary of State ordered a change in our name. We have therefore changed the name from Florida Paper Company to Kraft Paper Company and will ask for Letters Pattent under above-mentioned name.

Gainesville, Florida.

GAINESVILLE,

—THE—

University City.

Gainesville is conceded to be the most enterprising as well as the most beautiful city in the interior of Florida. It is located in the very center of the State, half way between the Atlantic and Gulf Coasts, surrounded by lands of such fertility as to be capable of producing a great variety of crops; in the heart of the truck-growing, phosphate and naval stores belt. She has the best educational advantages in the State, good churches, with edifices which are superior to any town of its size in Florida, with large and consistent congregations; has a climate which cannot be excelled for health and pleasure. All these natural advantages, combined with a progressive and enterprising cosmopolitan citizenship, are sure to make a big city.

There are many natural attractions in close proximity to the city, some of which are Alachua Sink, Paine's Prairie, the Devil's Mill Hopper, Warren's Cave, and Lake Newnan, all of which are reached by private conveyance

Spring Park Stock Farm, the largest and finest live stock farm in the State, is only eight miles west of the city and is reached by a good hard road, affording a most pleasant drive.

The farmers of Alachua county, of which Gainesville is the county seat, "live at home and board at the same place." The temperature is very uniform, scarcely ever reaching the nineties in summer or the twenties in winter. The population of Gainesville is about eight thousand, representing nearly every nationality on the face of the earth, and strangers always meet with a hearty welcome.

The University of Florida for young men and the National Agricultural Experiment Station are located within the corporate limits of the city. In fact, Gainesville has so many things that we must be pardoned if we omit a few of them in the following enumeration of what

'Twixt Optimist and Pessimist,
The difference is droll.
The Optimist sees the doughnut,
The Pessimist sees the hole.

Some would say the best way to turn an optimist into a pessimist would be to feed him the doughnuts, and this would be true if the doughnuts are fried in lard. Lard is certainly indigestible and many people are deprived of the pleasure of eating doughnuts and other dainties just because of this fact. However, there is a cooking fat —COTTOLENE—which can be used in any way and every way that lard can, and yet makes light, rich, delicious food that the most delicate stomach can digest with ease. COTTOLENE is making the world cheerier and brighter for thousands who were formerly suffering from the curse of lard-soaked food.
